S&G® Audit Lock 2.0
Model 3006/3007

Security is about more than safeguarding your assets. It's also about knowing who accessed them—and when. The Sargent and Greenleaf® Audit Lock 2.0 is the ideal solution for more advanced security. Banks, retail outlets, small offices and other businesses can rely on this lock to provide high quality, informative security.

With a new digital platform, the S&G Audit Lock 2.0 is now more flexible and specific to your application. This commercial grade electronic lock with audit trail capabilities is not only more secure, it is also quicker to install. Users find it easier to operate, particularly when operating multiple locks repetitively. Best of all, this affordable lock is faster, simpler to program and offers more advanced features and functionality.

AUDIT LOCK 2.0 FEATURES
